These Change Control Forms are the result of the five-year review of the Tri-Party Agreement. During this process, the Tri-Parties reviewed the Tri-Party Agreement and determined there has been substantial compliance with the terms of the Agreement, and there was a need to modify the Agreement. The Tri-Parties worked several months to develop, review, and approve Tri-Party Agreement Change Control Forms to arrive at Revision 9 of the Tri-Party Agreement.

This successful effort by the Tri-Parties consisted of:

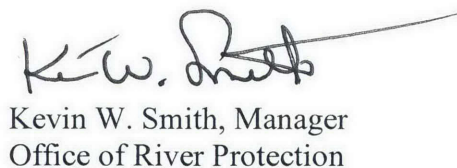

- Establishing update priorities;
- Performing a line-by-line review of the Tri-Party Agreement;
- Reviewing 92 approved Tri-Party Agreement Change Control Forms since Revision 8 was issued on July 18, 2011;
- Developing an integrated agency schedule to accomplish the review and update;
- Conducting monthly meetings and tracking action items;
- Coordinating project and legal reviews from all three Parties;
- Providing Hanford Advisory Board briefings;
- Maintaining configuration control of all comments and changes; and
- Modernizing and reformatting the Tri-Party Agreement digital files for ease of use.

DOE appreciates the efforts of the Washington State Department of Ecology, U.S. Environmental Protection Agency, and contractor staff in completing this collaborative effort to update the Tri-Party Agreement implementing Revision 9.
